Examiner's amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. This amendment was authorized by Mr. Timothy B. Clise (Reg. No. 40,957) during the telephone conversation on Jan. 7, 2005.

In claim 1, lines 5 and 10, before "first" and "second", respectively, insert --of the at least one --.

In claim 39, line 8, after "circuiting", insert --between the first and second conductive elements--.

The following is the re-statement of the examiner's amendment of 10-15-03.

In claim 51, line 1, before "semiconductor", insert --method for forming a --.

Change the title to --METHOD OF FORMING BURIED CONDUCTORS--.

Reason for Allowance

3. Claims 18-51 are allowed.

Claims 18, 39, 42, and 51 recite "connecting the first conductive material to conductive parts that extend upwardly on opposite sides of the second conductive material beyond the second depth" or "connecting the plurality of substantially parallel second conductive elements to conductive parts that extend upwardly on opposite sides of the first buried layer beyond the first depth adjacent outer ones of the plurality of substantially parallel first conductive elements".

These features in combination with the other elements of the claim are neither disclosed nor suggested by the prior art of record.

Claims 19-38, 40, 41, and 43-50 variously depend from claims 18, 39, or 42, they are allowed for the same reason.
